AGRICULTURE

Office of the Minister

131 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-2137

February, 1991

Alberta's farmers are known internationally for their dedication to efficiency and quality. The raw materials they grow have spurred one of the fastest-growing, most dynamic value-added sectors anywhere.

The agriculture and food industry is vital to Alberta. It is the province's second largest industry, providing one in three jobs and generating billions of dollars for our economy.

Alberta Agriculture is proud of the province's food processing industry and is pleased to provide the 1991 Agricultural Processing Industry Directory. This directory will be a valuable tool both those in the industry and for those requiring the industry's products and services.

The directory contains a comprehensive index of the names, locations and products of members of Alberta's agricultural processing industry. Every effort has been made to ensure accurate and up-to-date information. We trust that it will be a useful reference for you.

Ernie Isley
Minister

Shirley McClellan
Associate Minister

FOREWORD

The Marketing Services Division of Alberta Agriculture presents this Directory of Alberta's Agricultural Processing Industry as a reference for use by the business community, government agencies and other interested parties. It serves to update users with current company information including contact personnel, products and brand names.

The Directory has been divided into three sections.

(1) Company Listing by Product Category

Firms are listed under a broad industry category which represents their major processing activity and not necessarily under each category in which they are active. A category description normally precedes each listing. The addresses of related industry organizations have also been included where applicable.

(2) Index by Location

Firms are listed by their location. An Alberta map has been included for reference purposes.

(3) Index by Company

Firms are listed in alphabetical order, with location indicated for each. This section has been page referenced to assist you to find the firm that you are interested in.

Considerable effort has been made to ensure accuracy of the company listings and information shown and we regret any errors or omissions. The Directory was prepared by the collation of information available to the Alberta Department of Agriculture and neither the Department nor any of their employees assume any legal liability or responsibility for the accuracy, completeness or usefulness of the information contained herein. The listing of any company or product in this guide does not reflect an endorsement of the company or product by the Alberta Department of Agriculture.

We ask your assistance in keeping this directory current. As changes occur in the information presented for any company listed, or if you are an Alberta processor and wish to be included in the next edition, please contact:
